Letters from your Administrators...

MESSAGE FROM THE SUPERINTENDENT

APU has been offering American quality education in Vietnam since its inception in 2004. It has provided a strong foundation for the academic success of our graduates at all levels from Pre-K through grade 12. It offers an unparalleled student-centered educational experience that is best in class in the country. The original APU International School is located in HCM City. In 2015, we opened a second school in Da Nang City, called APU American International School.

Our teachers instill in our students not only academic knowledge, but creativity, critical thinking, sound reasoning, civic behavior, and personal responsibility. They devote their efforts on a daily basis to the intellectual, emotional, social, and character development of the students. They are doing their best to do whatever it takes so that students do their best, creating achievements now and in the future.

After high school completion, APU graduates have the privilege of direct pathway to university education, without the need to submit a copy of SAT, ACT, TOEFL or IELTS.

Particularly, they have a unique opportunity to participate in our Dual Enrollment Program, and Global Freshman Academy Program. Under these programs, our students can earn university-level credits while still in APU high school. As a result, APU can save considerable time and tuition cost for our students during their university study. It is gratifying to see that almost every year a majority of APU graduates receive sizable scholarships from prestigious U.S. universities. The reason is that APU students have been well known for their great academic achievements in their universities abroad. Around 85% of APU graduates have been placed on the Dean's List of their respective universities in the world.

A majority of APU students, upon completion of their under-graduate or graduate studies, have been offered employment by large multi-national companies based on their search results showing our students' outstanding academic efforts and the formation of their personality which had started from their first school days at APU.

APU Hall of Fame is currently under construction to celebrate those APU graduates who had accomplished outstanding academic records and/or professional achievements. Their exceptional social service contributions for the betterment of the environment and community are also considered.

The success of APU elementary, middle and high schools is due to our dedicated and committed teachers, parents, and school staff all working together in support of our students. These people are all partners in the vision to enhance the student experience and success in class, out of class, at home, and elsewhere. As a result, our students have shown great achievements in their studies, and we are proud of their accomplishments. In the area of educational development, a new building to accommodate 500 Elementary students and a Multi-Purpose Center which can house 2,000 persons are under construction and will be completed by August this year. It can be used to organize a convention, or any sport event.

We think of our students as future leaders and professional of the global economy. So we remain loyal to our academic mission and continue to maintain excellence in teaching and learning.

Sincerely,

*Dr. Tran Nguyen
Thy Binh*

Dr. Tran Nguyen Thy Binh
Superintendent,
APU International School
Da Nang and Ho Chi Minh
City, Vietnam Campuses

Dear Students,

Another amazing year comes to a close. The 2018 – 2019 academic year was a year full of good times and hard work for our students. We began the school year with a beautiful opening ceremony. Throughout the year we celebrated the Harvest Moon Festival; Halloween; Vietnamese Teacher's Day; Christmas; Tet and we had our annual Camp Out for students in grades 8 – 12. APU also sponsored a STEM Conference at the Novotel.

I hope that you will continue to do the right thing, even when no one is watching. Be kind and strive to understand other peoples' perspectives. Sometimes it is difficult to be grateful if you feel people owe you. That is why you should never develop a sense of entitlement. Once you have strived so hard and reach the summit, remain humble and show your gratitude to people that restored your desire to persevere when you felt defeated. In closing I will leave you with my favorite quote of all time:

"There comes a time in your life, when you walk away from all the drama and people who create it. You surround yourself with people who make you laugh. Forget the bad and focus on the good. Love the people who treat you right, pray for the ones who don't. Life is too short to be anything but happy. Falling down is a part of life, getting back up is living."

-- Jose N. Harris

Now, go out and do great things and strive to be better every day than the day before. When you look back at your time at APU American International School, I hope you will reminisce of the good times you had and the wonderful teachers who helped you.

Sincerely,

Dr. Wanda Reyes McCullough

Dr. Wanda Reyes McCullough

Principal, APU International School

Da Nang, Vietnam Campus

Dear Students,

It has been my pleasure serving as Vice Principal of APU American International School this academic year. Learning is a lifelong activity, and it is always amazing to see the seeds of education begin to grow and blossom in our students. I hope each of them has had their thirst for knowledge ignited within, and that they have begun to know who they are in relation to the world around them.

Thank you to the entire staff for working so tirelessly to make APU a special place to learn, and I am especially grateful to the teachers and administration for helping me to grow on my own personal path..

Sincerely,

Dr. Marc Formichella

Dr. Marc Formichella
Vice Principal,
APU International School
Da Nang, Vietnam Campus

Many thanks to the Yearbook Club, Ms. Dawana Dodson, Mr. Eric Seyler, Ms. Maureen Madden, and Mr. Theunis Knoetze for their time and hard work putting this yearbook together.

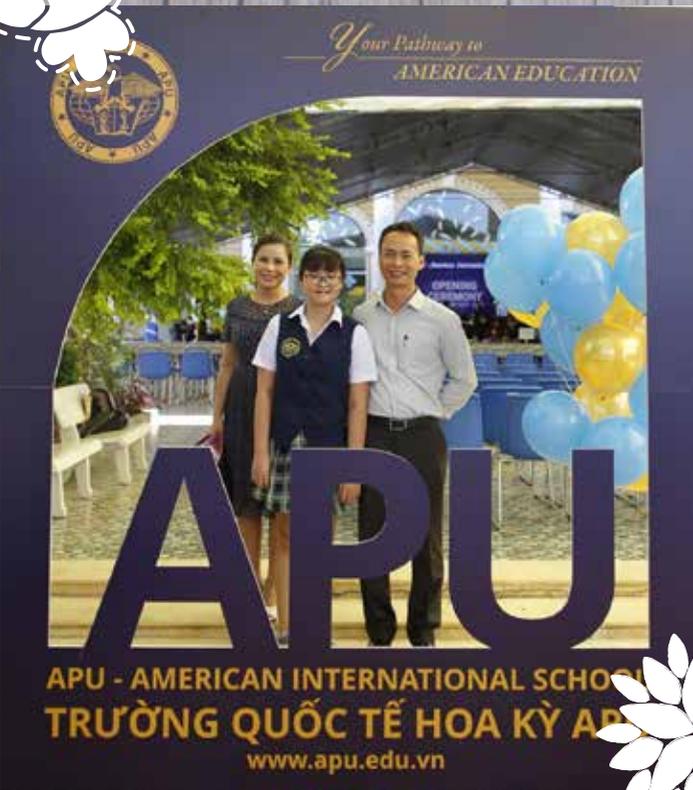

2018-2019
APU School Year
Opening
Ceremony

"Every day is a new beginning. Treat it that way. Stay away from what might have been, and look at what can be."
- Marsha Petrie Sue

"This is going to be one of the best school years yet!"

Robotics

As part of the of the ever growing Information, Communication & Technologies (ICT) Curriculum in APU American International School, we have been very privileged to have obtained a Hummingbird Robotics Kit this academic year. Our unit focus was for the students to design robots on their project planning worksheets, build their creative robots applying different materials in groups, then, code the robots using input sensors like sound or distance, to move their robot or light them up in a innovative way. I wanted our students to use and understand new technology to identify complex problems, formulate, justify and apply solutions in a collaborative environment whilst learning a new programming language. Our students have had also fun building their robots in a productive learning environment and personally, I am very proud of their hard work and dedication to produce their wonderful projects. Same again next academic year. Here are some photos of our students' projects.

Mr. Andy Feather BSc.

College Bridge Program

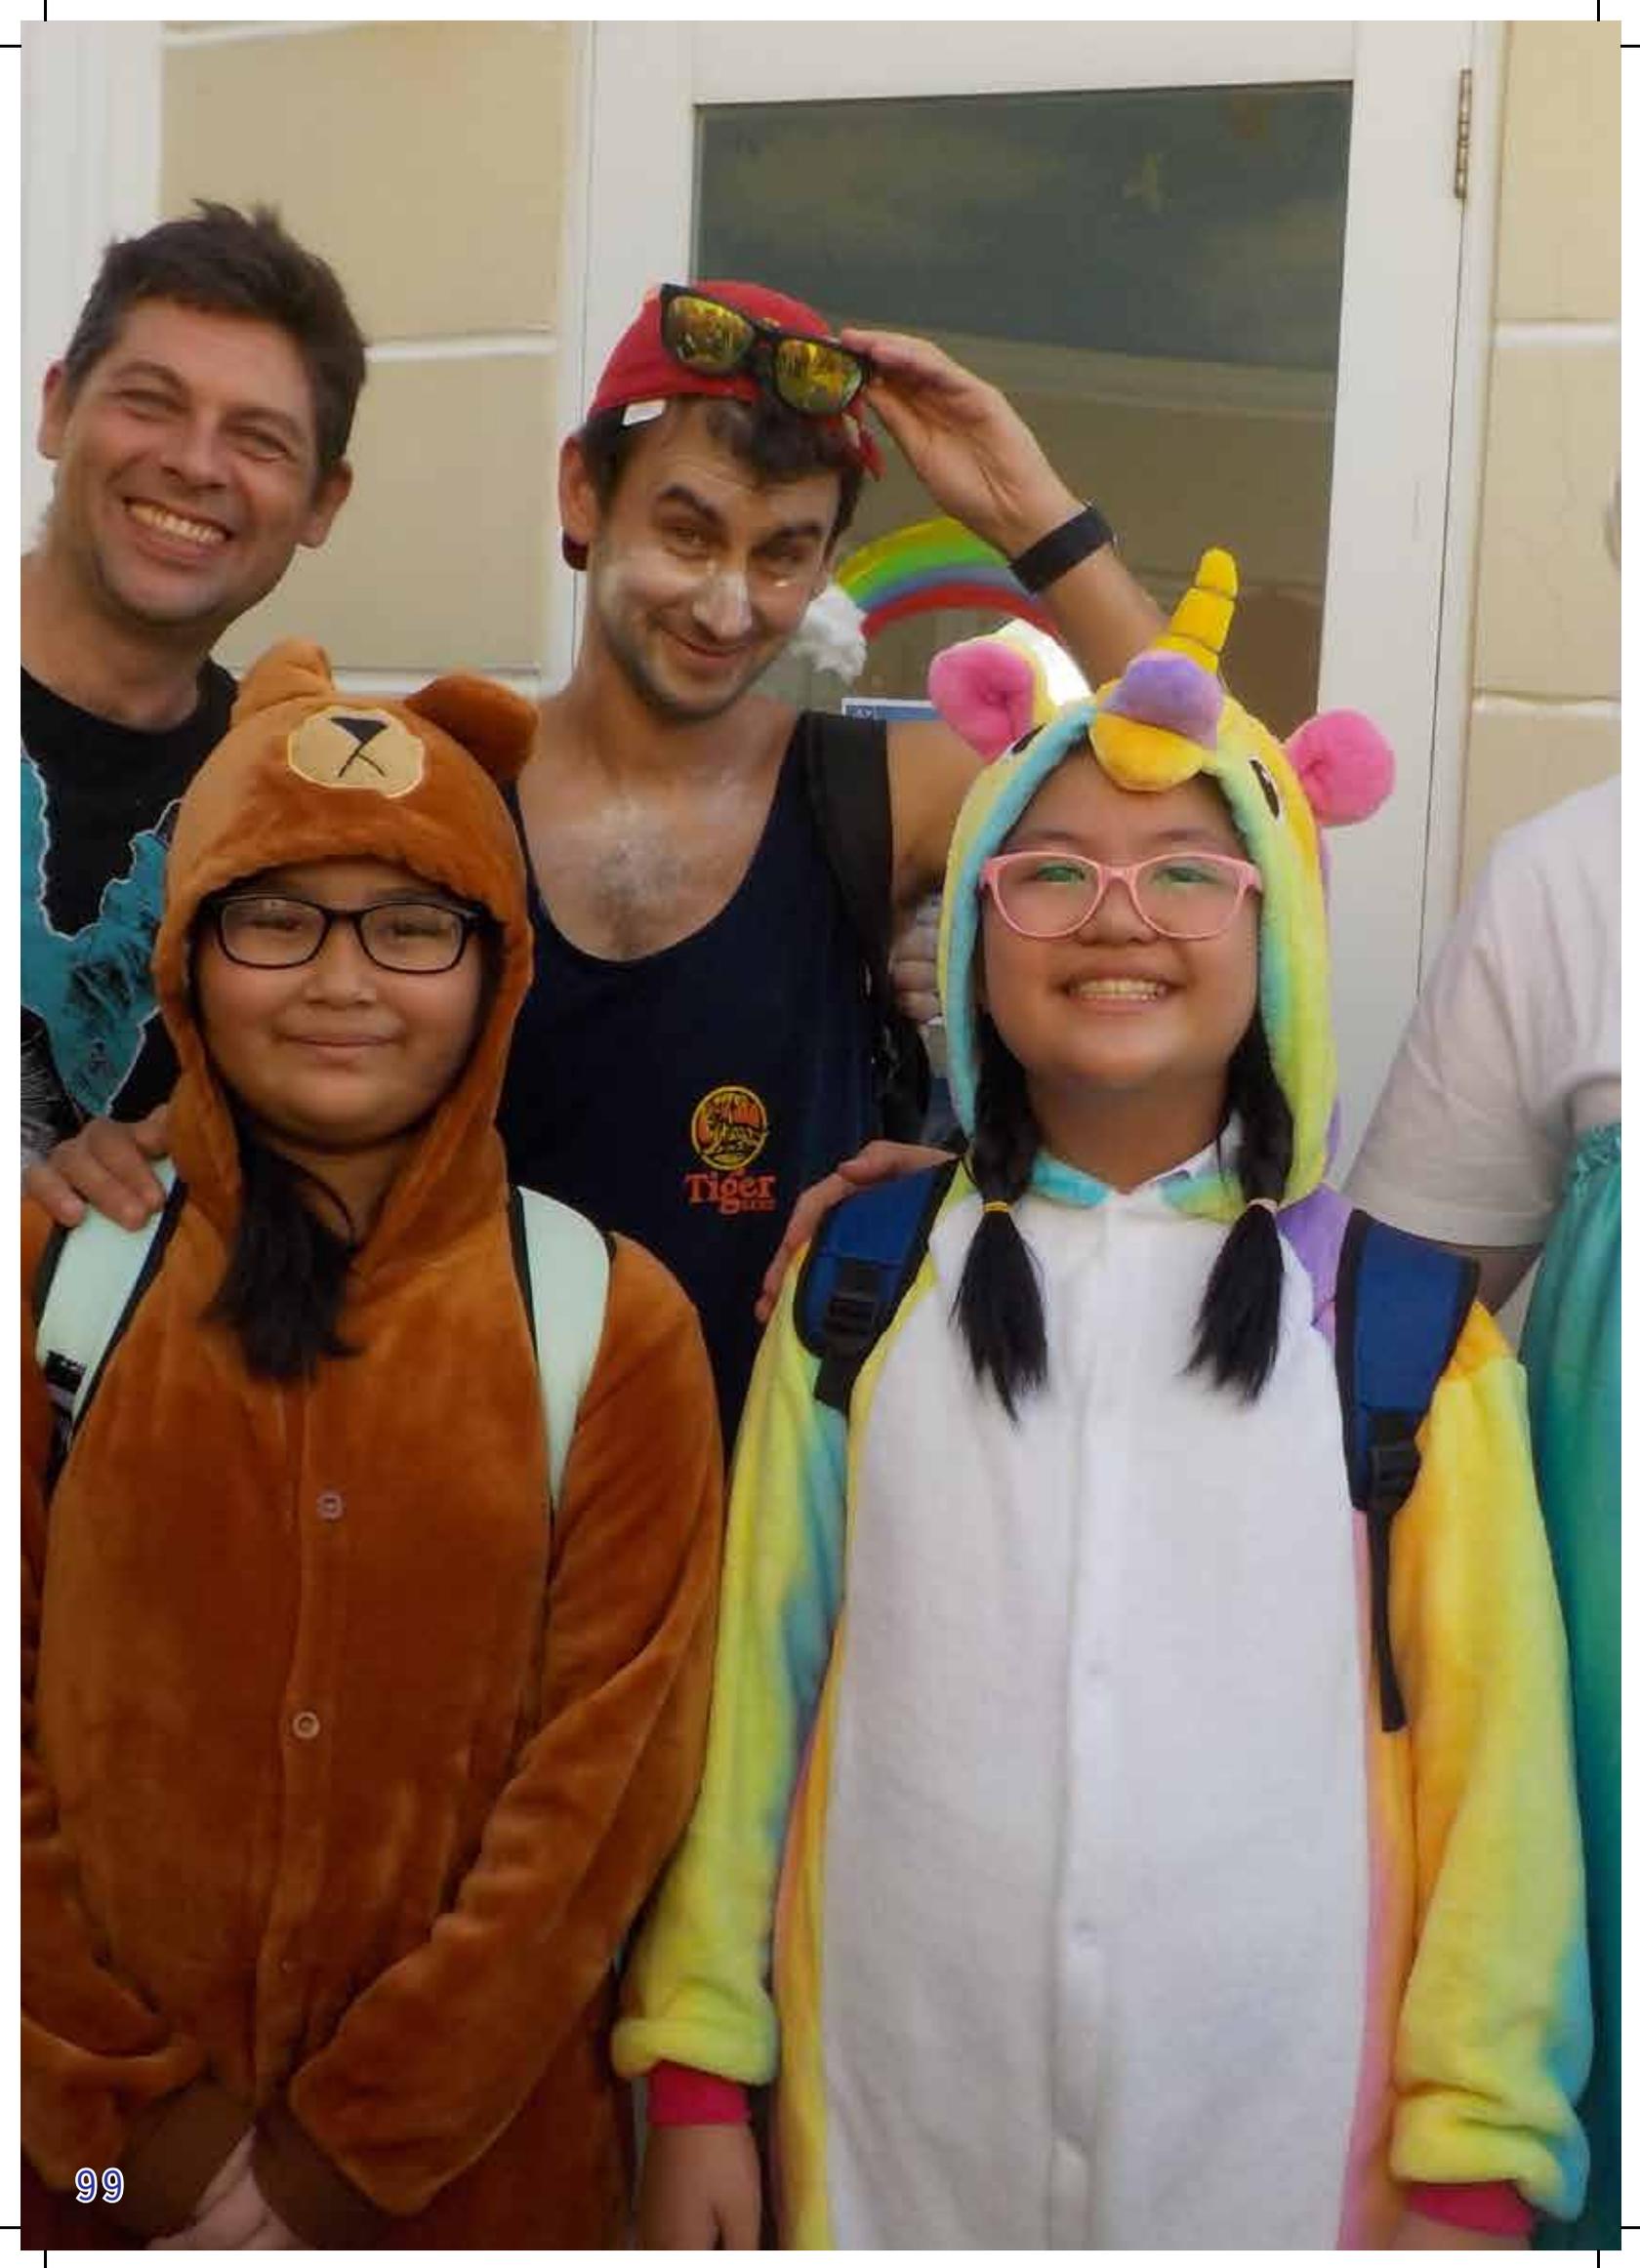

APU affords an amazing opportunity to our students. Partnering with the University of Missouri, Kansas City, APU students are given the option of taking college courses. These are semester long courses taught by our own UMKC trained AUV faculty, and they are held in the AUV building. Students who pass their respective course earn college credits, transferable to top U.S. universities, and they also earn 0.5 credits at APU, so it really is a wonderful program and opportunity for them.

This year the students were offered the following courses:

Fall Semester
Introduction to Economics
Introduction to Academic Prose
Pre-Calculus

Spring Semester
Introduction to Fiction
U.S. History Since 1877

A message from the team

On behalf of all of us in the yearbook club, and those of us who were a part of the team in any big or small way, thank you for being you and helping to make this year a year to remember!
